3. Importations

Somaliland imports cover a wide range of products consisting mainly of food items, petroleum products, building materials, machinery and equipment, consumer goods, pharmaceutical, tobacco and motor vehicles, etc.

Major trading partners on imports are Ethiopia, Kenya, Yemen, Saudi Arabia, U.A.E, India, Thailand, Malaysia, China, South Korea, Japan, Brazil, Italy, France, Germany and UK.

The main commodities imported are sugar, cement, rice, flour, fuel, building material and general cargo items.

Kat trade and consumption play a significant role in the economy, providing employment and one of the pillars of the Ministry of finance revenue system. However, the “kat” is acting as a drain on domestic income.

Taxation of imports/exports could be a primary source of potential revenue but is constrained by lack of regulation and effective promotion of trade.

Reliance on livestock exports is matched by reliance on imported food and consumer goods which means that Somaliland is import-dependent as a result of both preference for imported food and marginal grain production despite rich agriculture land is available.
